# Build your own steps into remote work

By Zeina Saadeddin

7<sup>TH</sup> ANNUAL INTERNATIONAL  
ARAB WOMEN IN COMPUTING AND TECHNOLOGY CONFERENCE

# Write your own story to get the right direction

- 1** What is my skills, what other skills should I learn?
- 2** Join Mentorship/Consultation group
- 3** Remote Job search. Type of industry/companies you prefer
- 4** Learn remote interviews skills
- 5** Share your learning/hiring journey

## Example

Lama with 3 years of experience would like to work remotely as a Full-stack Engineer to Europe company in Education industry

But, she know that her skills in Back-end not that much as in the front-end

ArabWIC

<p>1- she learn back-end and do projects and upload them on Github and in his own website</p>	<p>2- She edit her Linkedin profile mentioning everywhere <b>available for remote work.</b></p>	<p>3- She join <a href="https://interview.leetcode.com/">https://interview.leetcode.com/</a> <b>To review and practice algorithms interview skills</b></p>	<p>4- She follow remote recruiters on Linkedin where they post jobs related to her job search</p>	<p>5- She search on <a href="https://euremot.ejobs.com/">https://euremot.ejobs.com/</a> She start applying and learning from each experience until got hired!</p>
